VIRGINIA

## ***Presenters:***

★ **Marshall Vogt, MPH, CIC**

COVID-19 Vaccine Operations Section Lead

★ **Lean Abdelaziz**

COVID-19 MRC Medical Surge Coordinator

★ **Meagan Doran, MS, MPH**

VA MRC COVID-19 Coordinator

**VIRGINIA**

# What will you learn today?

**After the session, participants will be able to explain:**

- ★ State and Local Dispensing systems
- ★ Points of Dispensing Operating structures
- ★ Review of CDC COVID-19 Vaccination Distribution
- ★ Roles of Volunteers during MCM operations

**VIRGINIA**

# **Strategic National Stockpile (SNS) and Point of Dispensing (POD) Overview**

**Lean Abdelaziz**

**COVID-19 MRC Medical Surge Coordinator**

**VIRGINIA**

# Strategic National Stockpile (SNS)

- ★ The Strategic National Stockpile (SNS) is the nation's supply of life-saving pharmaceuticals and medical supplies, managed by the U.S. Department of Health and Human Services (HHS) for use in a public health emergency.
- ★ SNS caches are strategically located in secured warehouses across the United States.

**VIRGINIA**

# SNS Continue

- ★ Personal Protective Equipment (PPE)
- ★ Ventilators
- ★ Airway management consumables
- ★ Pharmaceuticals
- ★ Testing supplies

**VIRGINIA**

# SNS

**VIRGINIA**

**VDH** VIRGINIA  
DEPARTMENT  
OF HEALTH  
Protecting You and Your Environment

# Roles of State & Localities

State (VDH):

Receive, unpack, store, secure and distribute to local jurisdictions and other state governments.

Public Information and Communication

Local HD:

Receive, secure and dispense necessary MCMs to the public in a timely and efficient manner.

Public Information and Communication

**VIRGINIA**

# Point of Dispensing (POD) Overview

Understand public health emergencies that require POD activations

Describe types, purpose, and functions of PODs

POD Operations: Functional POD Groups, roles and responsibilities.

**VIRGINIA**

# What is a POD?

- ★ Point of Dispensing: A point of dispensing (POD) is a fixed, identified public facility in which medical countermeasures (MCMs) are given to people in response to a public health threat or emergency.

## Primary Goals

Triage  
Medicate

## Secondary Goals

Behavioral health  
Record-keeping

**Decrease the number of individuals who may get ill**

VIRGINIA

# PODs vs. Clinics

## CLINICS:

Thorough  
medical history,  
vitals, exam  
and records

Individual-  
focused

Time-  
consuming

Traditional  
healthcare  
settings

Medical  
professional  
s

## PODs:

No exam &  
limited  
records

Population-  
focused

Process client  
as quickly as  
possible

Community-based,  
non-traditional  
healthcare settings

Non-  
medical and  
non-  
traditional  
staff

VIRGINIA

## Non-Medical Model PODs

Oral antibiotics

No medical  
license required

Dispensing to head  
of household (one  
can pick up for  
household)

## Medical Model PODs

Vaccines  
(injections)

Medical license  
required

Each member of  
household must  
come to the POD

**VIRGINIA**

# POD Operating Policies

## Minimum Information Requirements

- No photo ID necessary
- Full name, DOB, phone number, address and basic allergy information **only**

## Media Policy

- Media may access PODs but have no greater access to POD staff/facilities than residents
- Media must follow same rules and may be removed by Law Enforcement if they disrupt POD Operations

VIRGINIA

# Participant Question

**What's the difference  
between a "closed POD" and  
an "open POD"?**

**VIRGINIA**

# State & Local Dispensing Systems

Closed, or private, PODs use the resources of partner organizations to set up PODs and dispense MCMs in their own facilities.

Open PODs are open to everyone no restrictions on who can go to them. Are located in pre-identified, community-based facilities that public health agencies can activate to serve the general public.

**VIRGINIA**

# Examples of PODs

## ★ Closed PODs

Government examples

- Departments, Jails
- Private
  - Hospitals, churches and companies

## ★ Open PODS:

- POD sites include public schools, sports arenas, gymnasiums, community centers.
- Drive-thru PODs
- Mass vaccination clinics
- Pharmacists

**VIRGINIA**

# Dispensing Scenarios

## Public Health Events (Natural)

Naturally occurring diseases  
Novel or emerging infectious  
diseases

**i.e., COVID-19**

## Man-Made Incidents

Bioterror attacks: small or  
large-scale

**VIRGINIA**

# PH Emergencies that May Require a POD

Anthrax

Plague

Smallpox

Pandemic/Emerging Infections  
(e.g. H1N1, COVID-19)

**VIRGINIA**

# Responding to PH Emergency

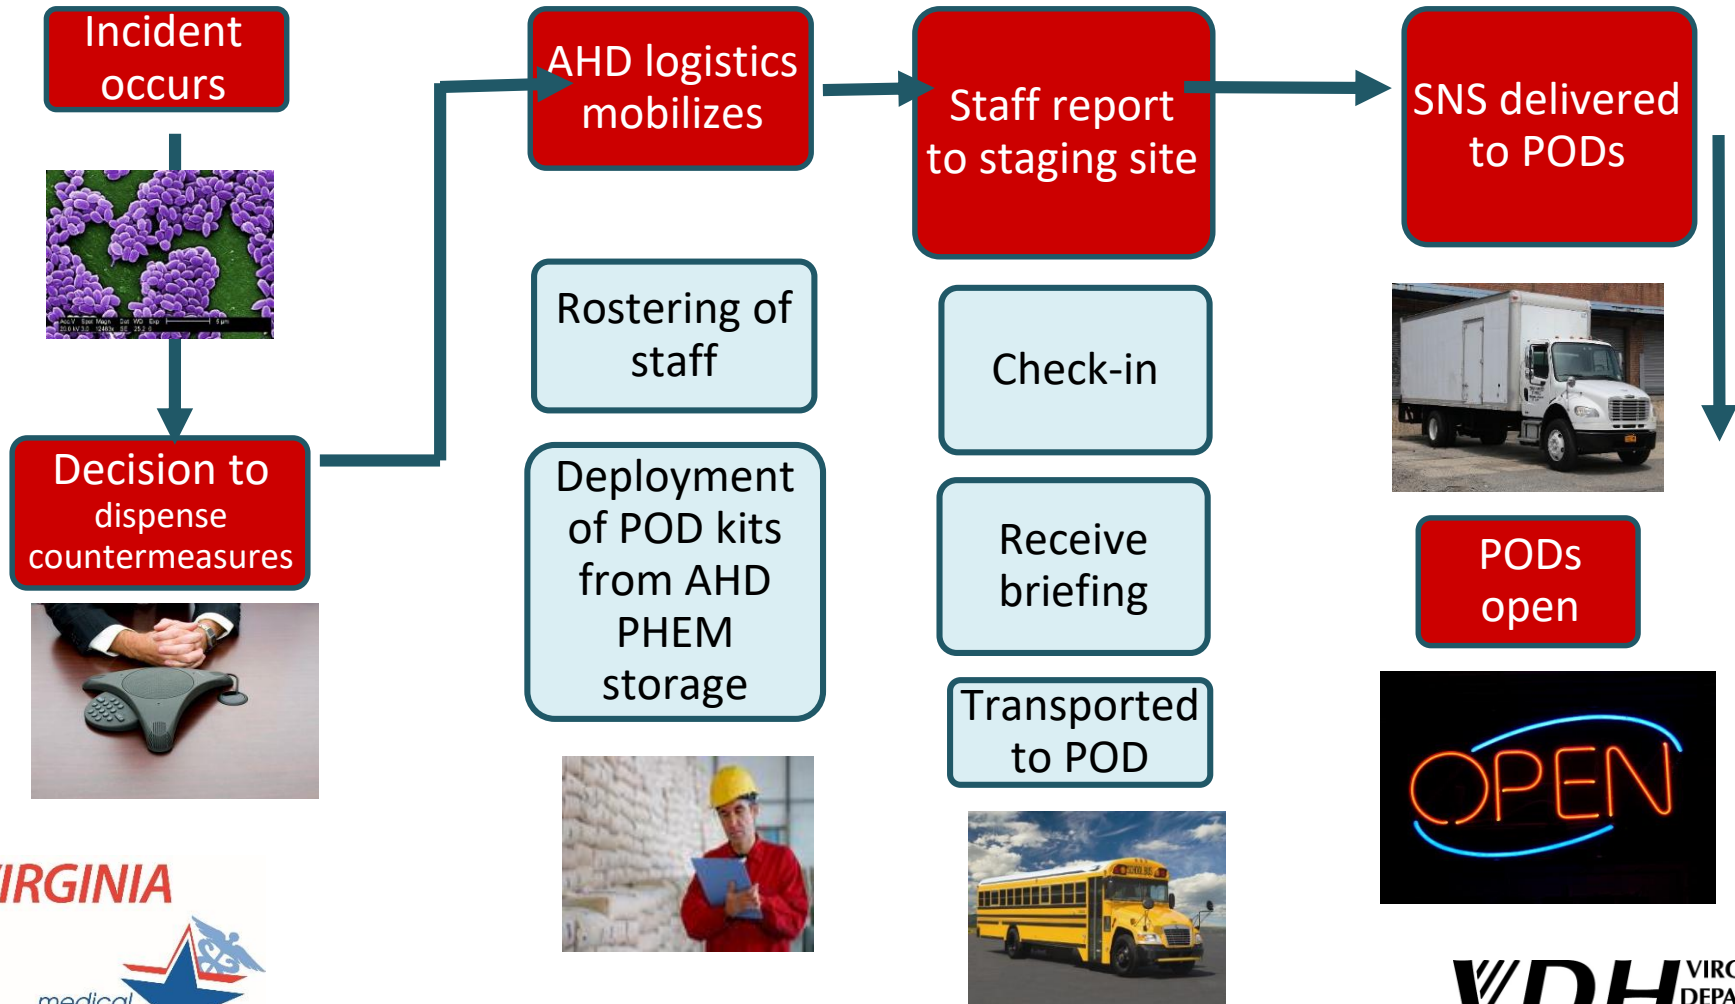

The ability to provide medical countermeasures in support of treatment or prophylaxis to the identified population in accordance with public health guidelines and/or recommendations.

**VIRGINIA**

# Response Timeline (General)

VIRGINIA

# Health Department Operations: Initial Actions

**Health Director**

**Public Health Incident Commander**

Initiates  
Unified  
Command

Requests  
support  
from  
Cooperating  
Agencies

Determines  
dispensing  
protocol

**VIRGINIA**

# POD Operations

## Primary Goals

Triage  
Medicate  
Educate

**Greet &  
Screen**

**Form  
Distribution  
& Review**

**Dispense  
or  
Vaccinate**

**VIRGINIA**

# POD Leadership & Command Staff

## **Job Description:**

- ❖ Manages, coordinates, and consults on overall MCM POD site functions, including operations, liaison, public information, security, safety, planning, logistics, and administration.
- ❖ You may be reporting to the Emergency Planner or Health Director.

**VIRGINIA**

# Command Staff

## Responsibilities

Direct all dispensing operations

Coordinate with partner agencies at POD sites

Communicate with the HDOC or EOC

Act as a resource for POD staff

Manage small-scale incidents that occur during dispensing operations

Ensure the safety of POD staff and clients

**VIRGINIA**

# Safety Officer/ Biosafety Officer

## **Job Description:**

Monitors clinic operations and advises the Clinic Points of Dispensing (POD) Supervisor in all matters relating to safety including health and safety of clinic personnel and clients. Assess and/or anticipate hazardous and unsafe situations.

- ❖ You might be reporting to POD Manager or Clinical Supervisor.

**VIRGINIA**

# Unit Leaders/Supervisors

## Responsibilities

The safety and welfare of your staff

Overseeing the operations of your Unit

Giving briefings and updates to your staff

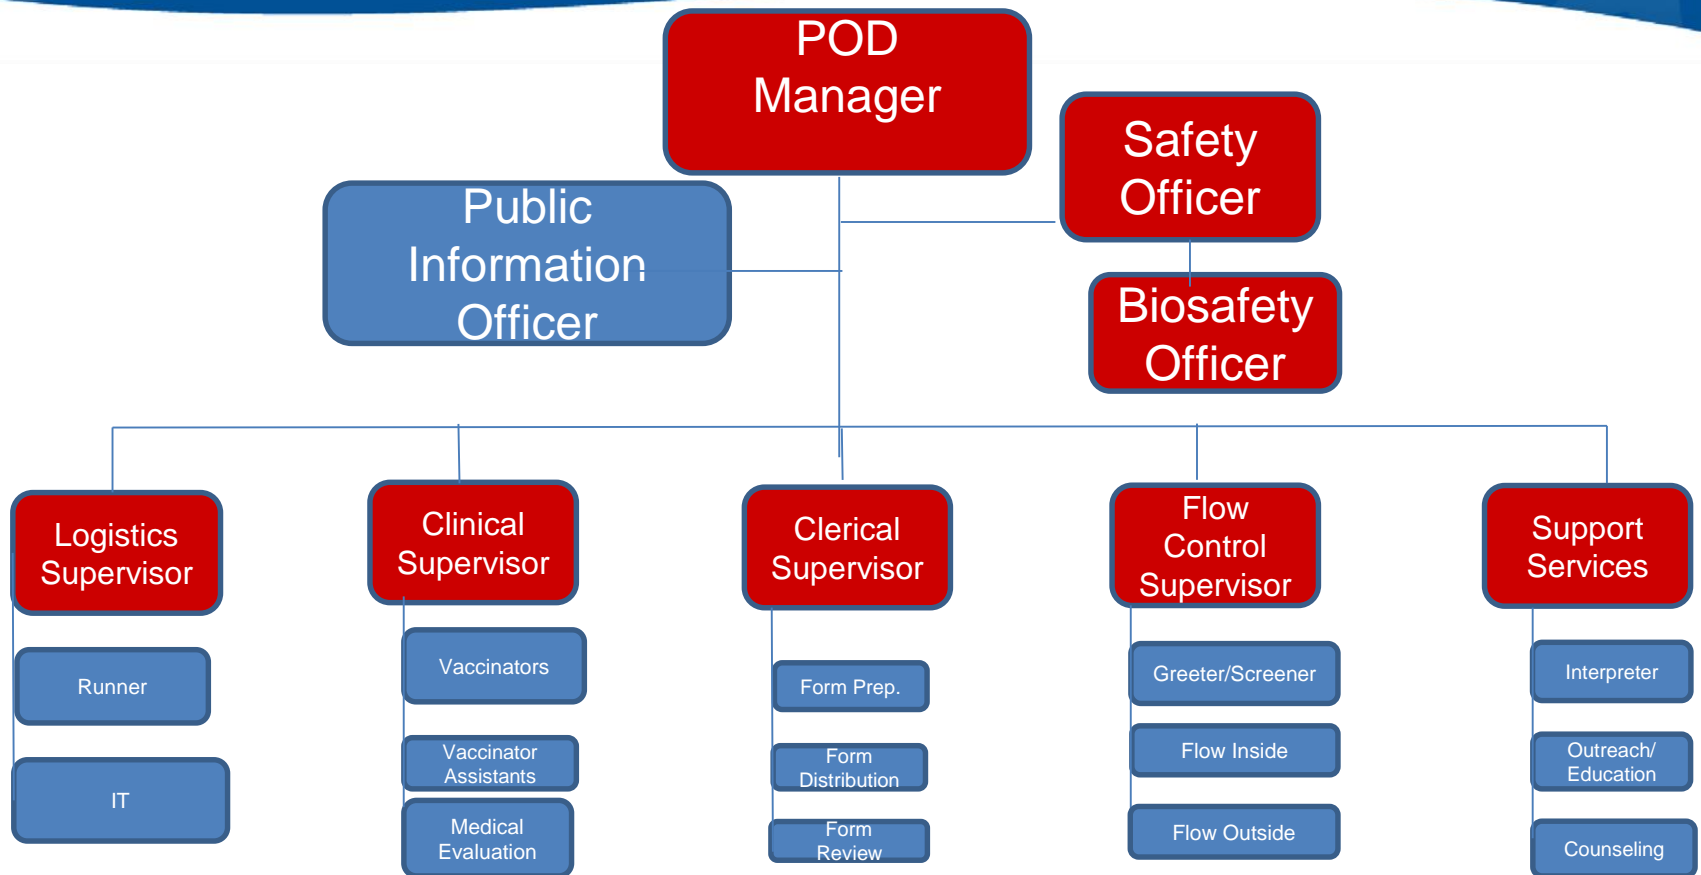

Ensuring staff receive adequate breaks and rest, look for PPE exhaustion

Ensuring staff record times appropriately

**VIRGINIA**

# Example of POD ICS Structure

**VIRGINIA**

# Logistic Support

## **Job Description:**

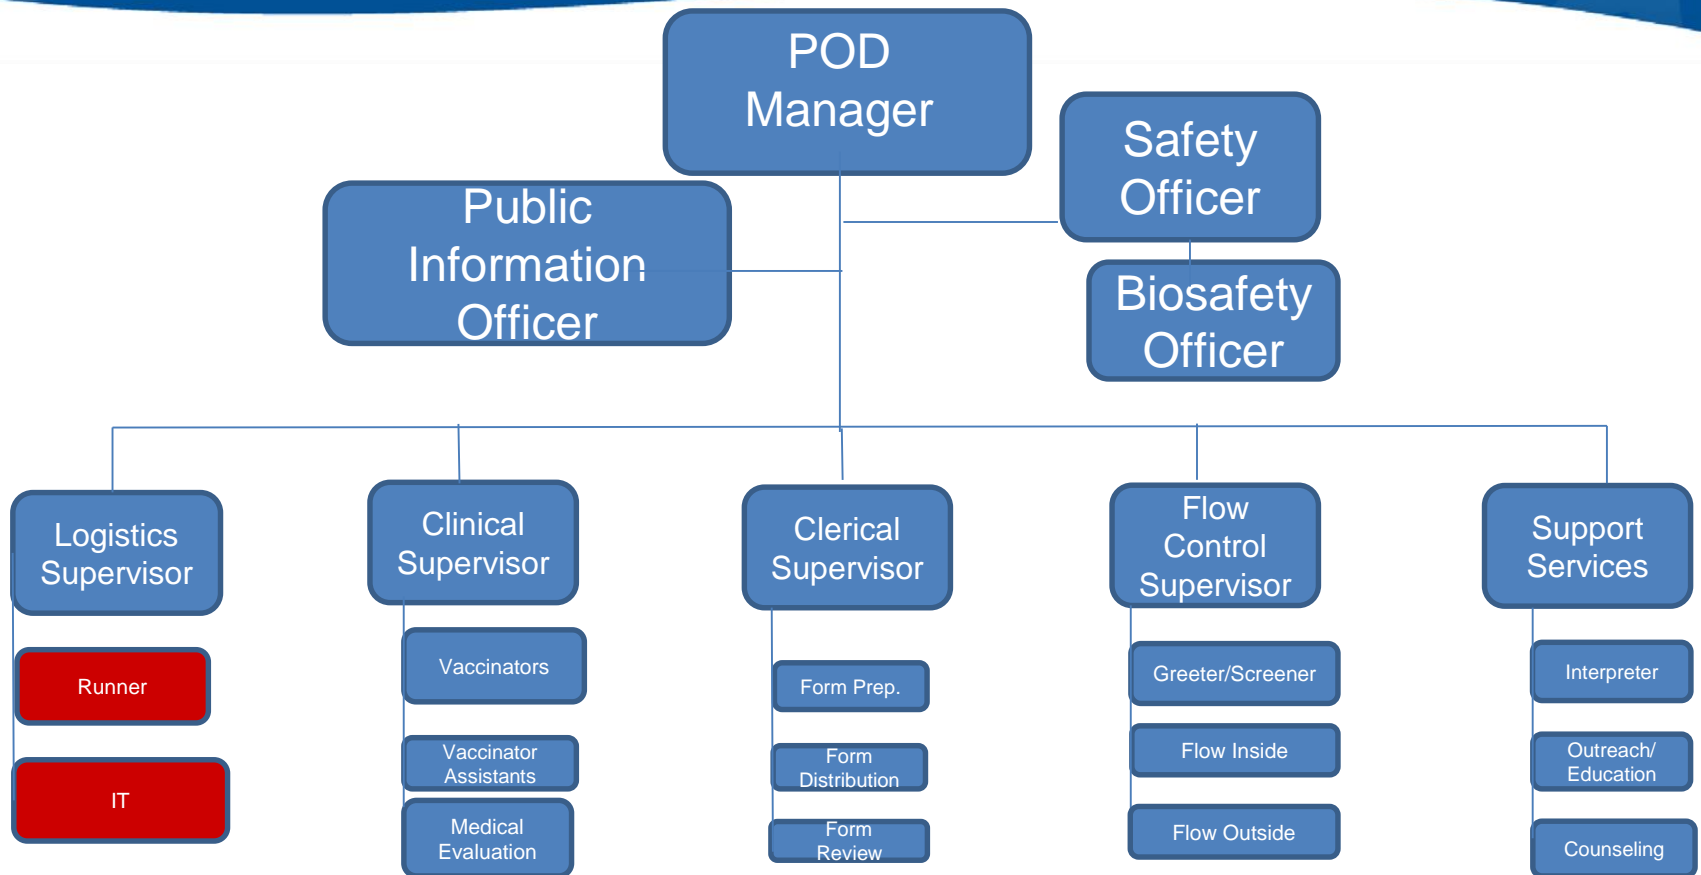

- ❖ Organize, direct and coordinate operations associated with acquiring and maintaining the facility, personnel and equipment to support Points of Dispensing (POD) functions.
- ❖ You might be reporting to Logistic unit leader,  
Logistic Supervisor or POD Manger.

**VIRGINIA**

# Example of POD ICS Structure

VIRGINIA

# COVID Vaccinator

## **Job Description:**

- ❖ Prepares and administers vaccines to clients.
- ❖ You might be reporting to POD Manager,  
Unit leader, Clinical Supervisor.

**VIRGINIA**

# Vaccinator Support/Medical Evaluator

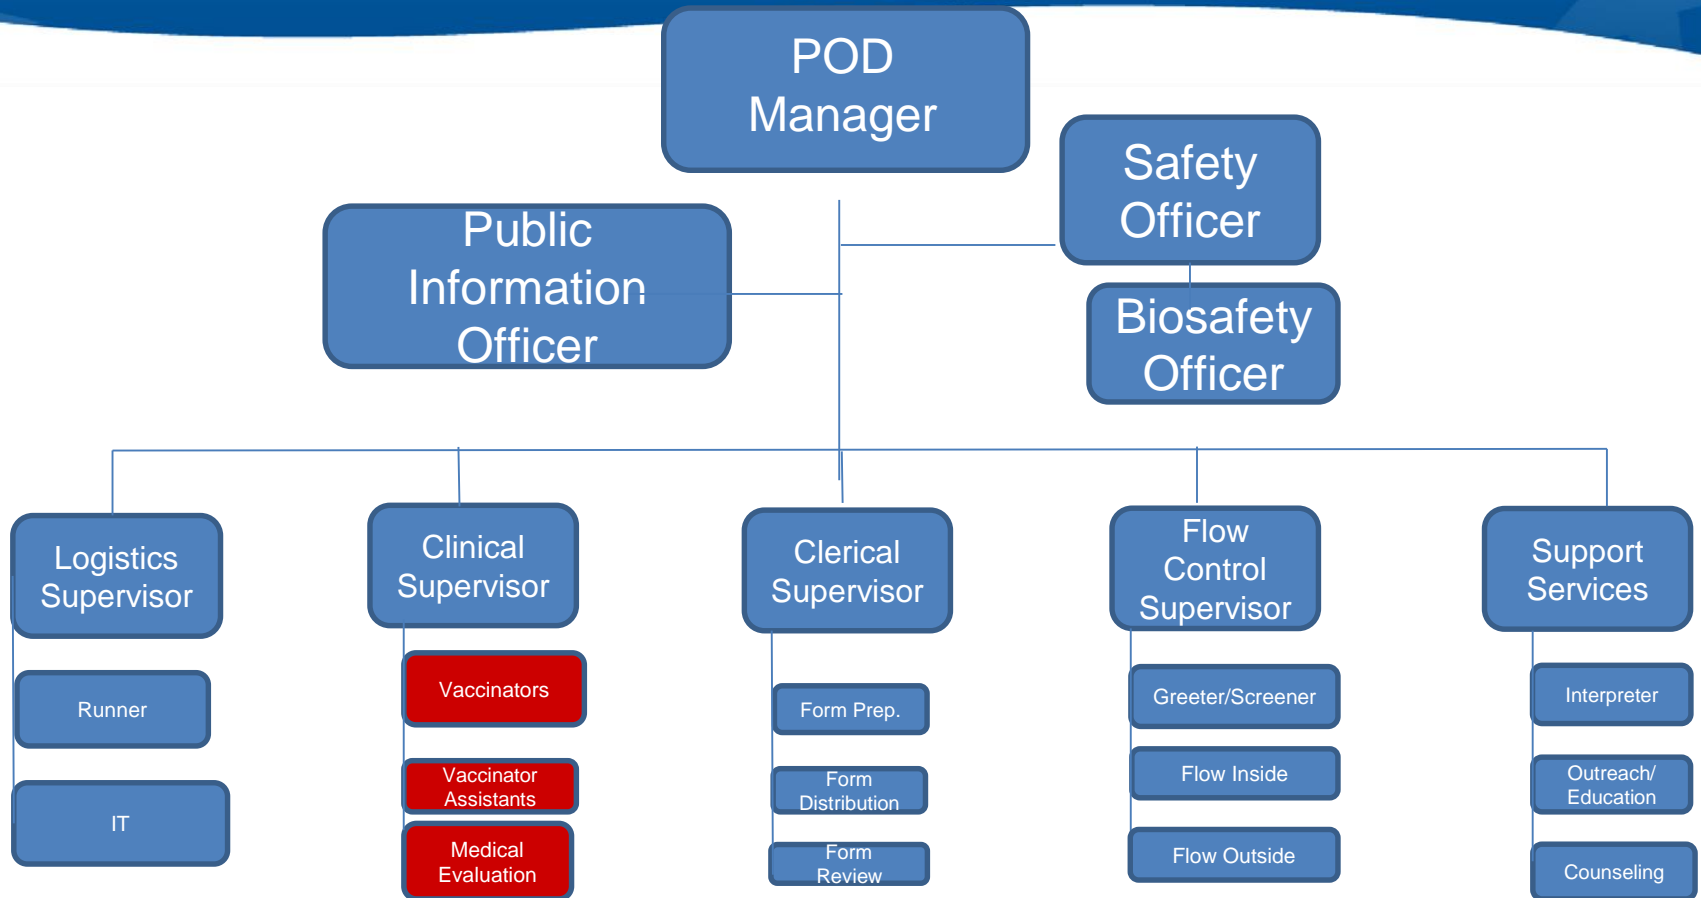

## **Job Description:**

- ❖ Ensure clients receive proper screening and medical evaluation per protocols.
- ❖ Collect and process all patient registrations and evaluation forms.
- ❖ Record time “in and out”
- ❖ You might be reporting POD Manager, Unit leader, Clinical Supervisor.

**VIRGINIA**

# Example of POD ICS Structure

**VIRGINIA**

# Participant Question

**Can you think of a support  
role or roles to a POD  
mission?**

**VIRGINIA**

# POD Admin Support

**Vaccine Controller/Fillers/ Screeners/Assistants/Floaters**

## **Job Description:**

- ❖ Reviews screening forms and assists the Vaccinators by preparing appropriate type vaccines.
- ❖ You might be reporting POD Manager, Support Services Leader, Flow/ Traffic Unit Leader

**VIRGINIA**

# Greeter/ Screener

## Responsibilities

Greet clients

Take temperature, symptoms

Direct visibly ill individuals to the healthcare system

Address needs such as physical, cognitive or language services

**VIRGINIA**

# Form Distribution/Review Unit

## Responsibilities

Record time "in" before handing out the screening form

Hand out screening form to each client

Answer client questions

Review form and record time "out" before referring client to the next station

Monitor for clients who require additional assistance and facilitate support as needed

# Flow/ Traffic Control Unit

## Responsibilities

Guide clients throughout the POD

Direct clients with outstanding questions to appropriate stations

Prevent arriving clients from entering POD through exit doors (direct them to the entrance area)

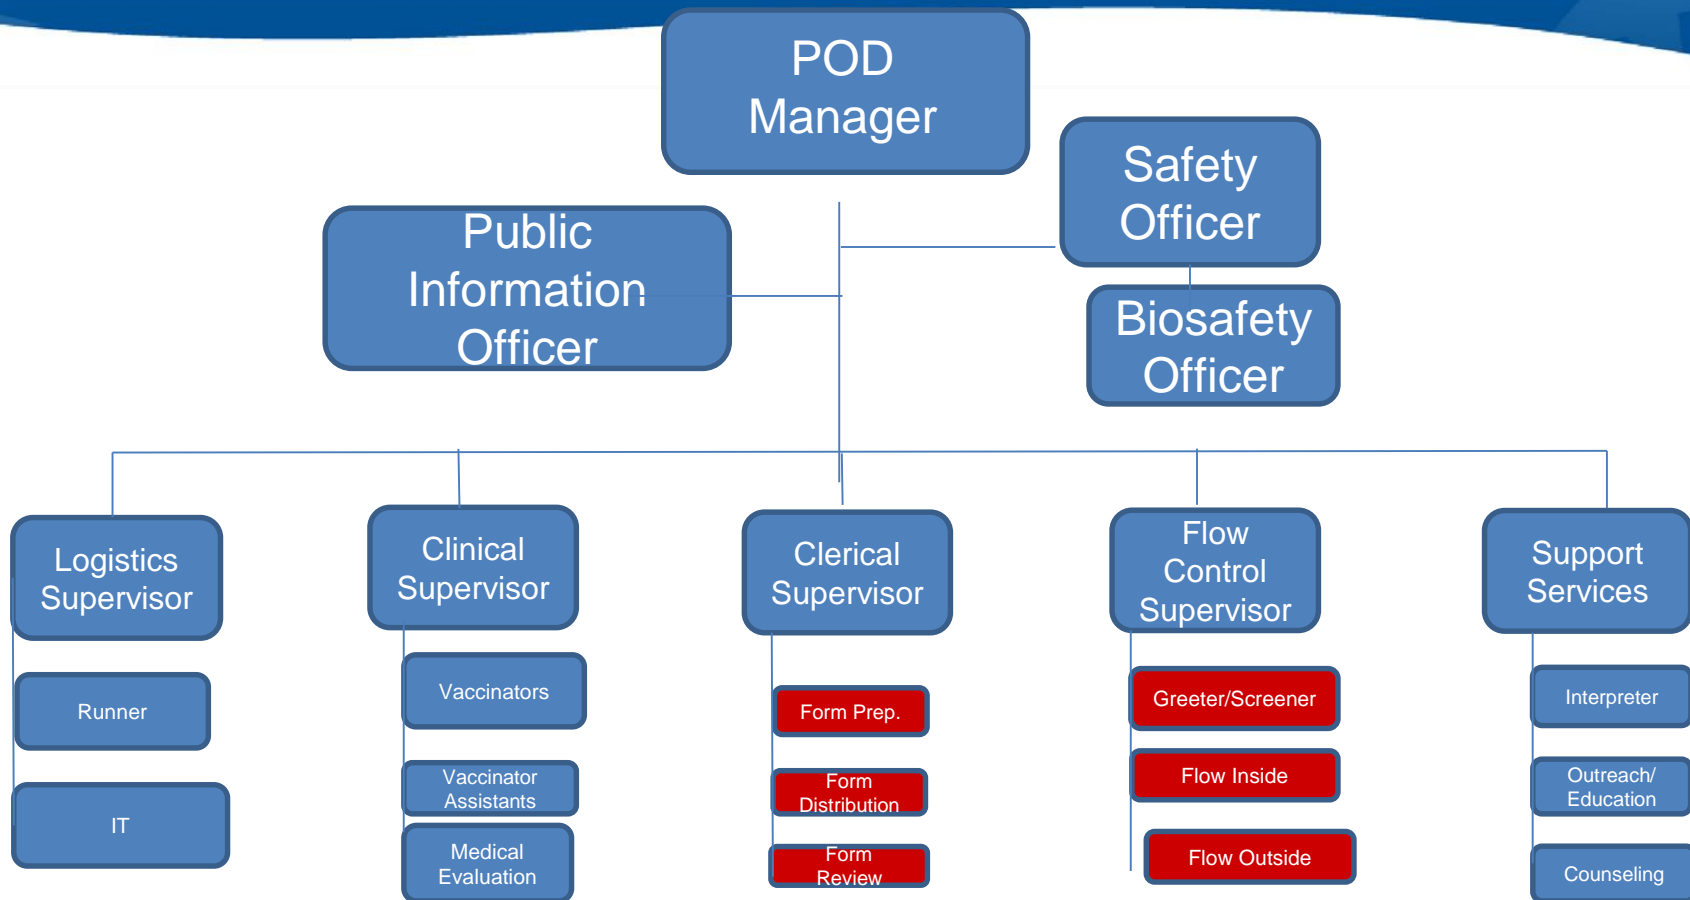

Address needs such as physical, cognitive or language services

**VIRGINIA**

# Location in POD ICS Structure

**VIRGINIA**

# Interpretation and Special Accommodations

## **Job Description:**

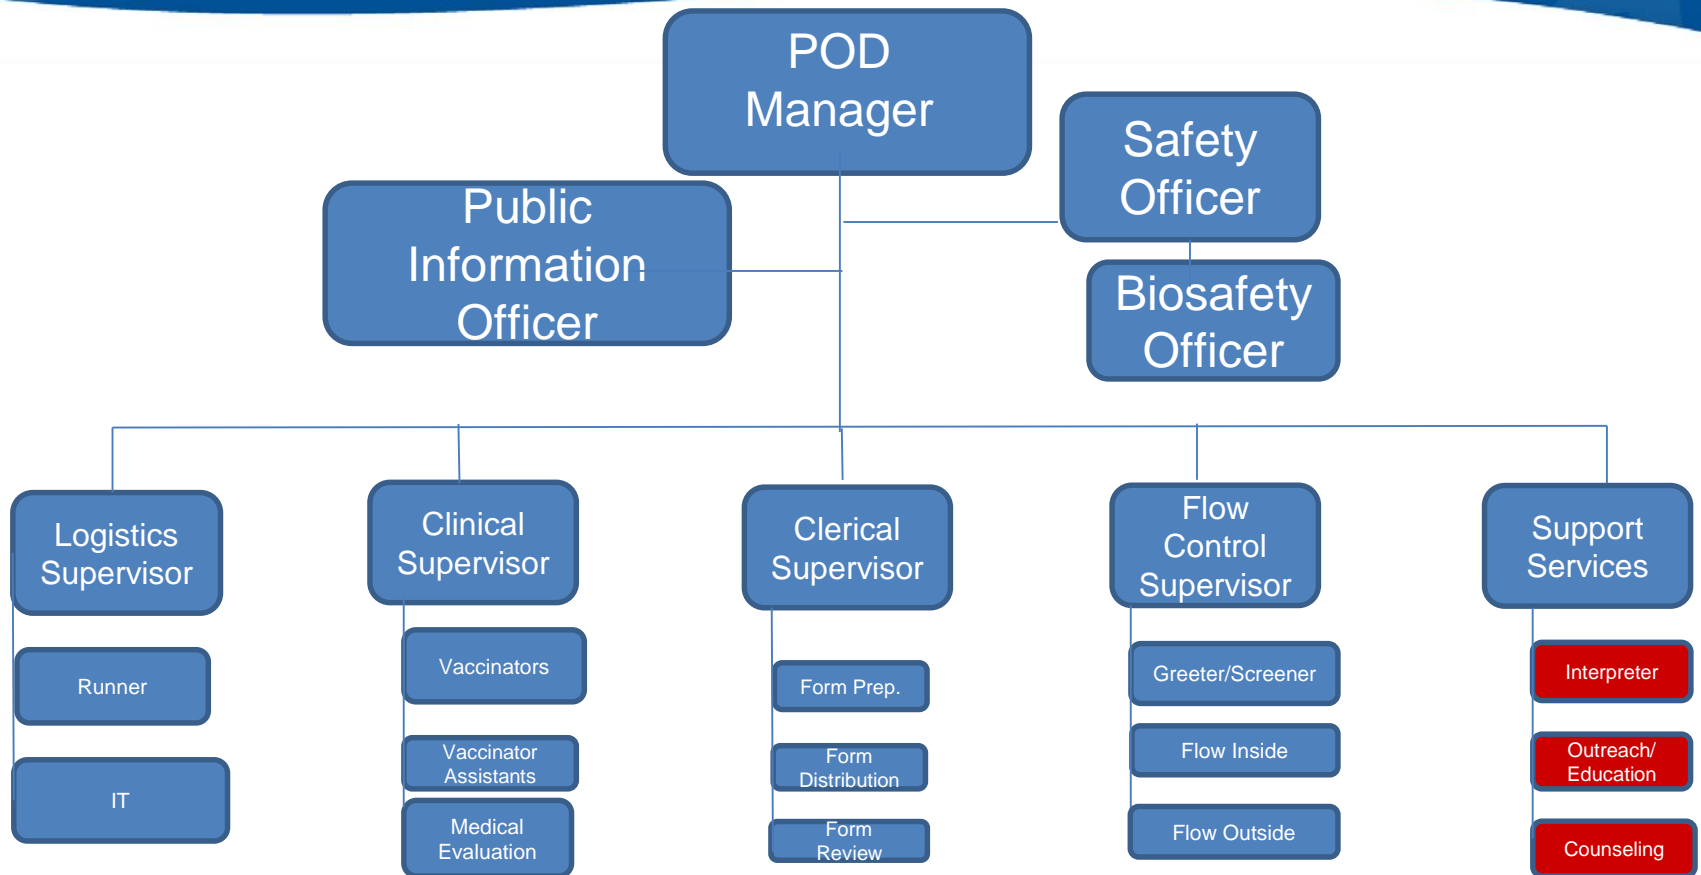

- ❖ Assists non-English speaking clients with understanding information and process of POD. Interpret information between POD staff & clients.
- ❖ Identify any accommodations needed for vulnerable populations such as children, elder, access and functional needs, hearing and visual impairments ect.
- ❖ You be reporting to a Support Services Unit leader, or a POD Manger.

**VIRGINIA**

# Example of POD ICS Structure

**VIRGINIA**

# POD Demobilization

- ★ At the conclusion of POD operations each POD Manager will:
  - Secure SNS/MCM inventory
  - Notify Team Leaders of POD demobilization
- ★ Team Leaders will:
  - Hold a debriefing/Hot Wash with their team to discuss successes and areas for improvement
- ★ General POD staff will:
  - Assist POD facility staff in demobilizing or setting up POD for follow-on PODs

**VIRGINIA**

# Tips and Training

Ensuring that you have a safe and  
successful POD

**Meagan Doran, MS**  
**VA MRC COVID-19 Coordinator**

**VIRGINIA**

**VDH** VIRGINIA  
DEPARTMENT  
OF HEALTH  
*Protecting You and Your Environment*

# Tips for Participating in a POD

- ✓ Be proactive – find the problem before it starts
- ✓ Pay attention to your staff's needs
- ✓ Be transparent
- ✓ Don't be afraid to get your hands dirty

**VIRGINIA**

# POD Safety and Success is in Your Hands

- ★ It is the responsibility of each person to use the information they've been provided

**VIRGINIA**

# Safety Considerations

- ★ Dial 9-1-1 in the event of a medical emergency; provide CPR or first aid if qualified.
- ★ Inform your ICS supervisor and Safety Officer of any injury or safety issue(s) you identify.
- ★ Everyone has a role
  - Look for PPE exhaustion signs and symptoms
- ★ If you see something, say something

**VIRGINIA**

# Brief COVID-19 Vaccination Update

OF HEALTH  
*Protecting You and Your Environment*

# COVID-19 Mass Vaccination

- ★ Plans are underway at federal and state levels
- ★ Finalization of specifics will depend on the approval of a vaccine by FDA
  - Recommendation given on 12/10
  - Emergency Use Authorization 12/12
- ★ Variety of POD models may be utilized
- ★ MRC will serve a critical role in vaccine administration and distribution efforts

VIRGINIA

# Vaccine Information

## COVID-19 Vaccine Candidates with U.S. Investment

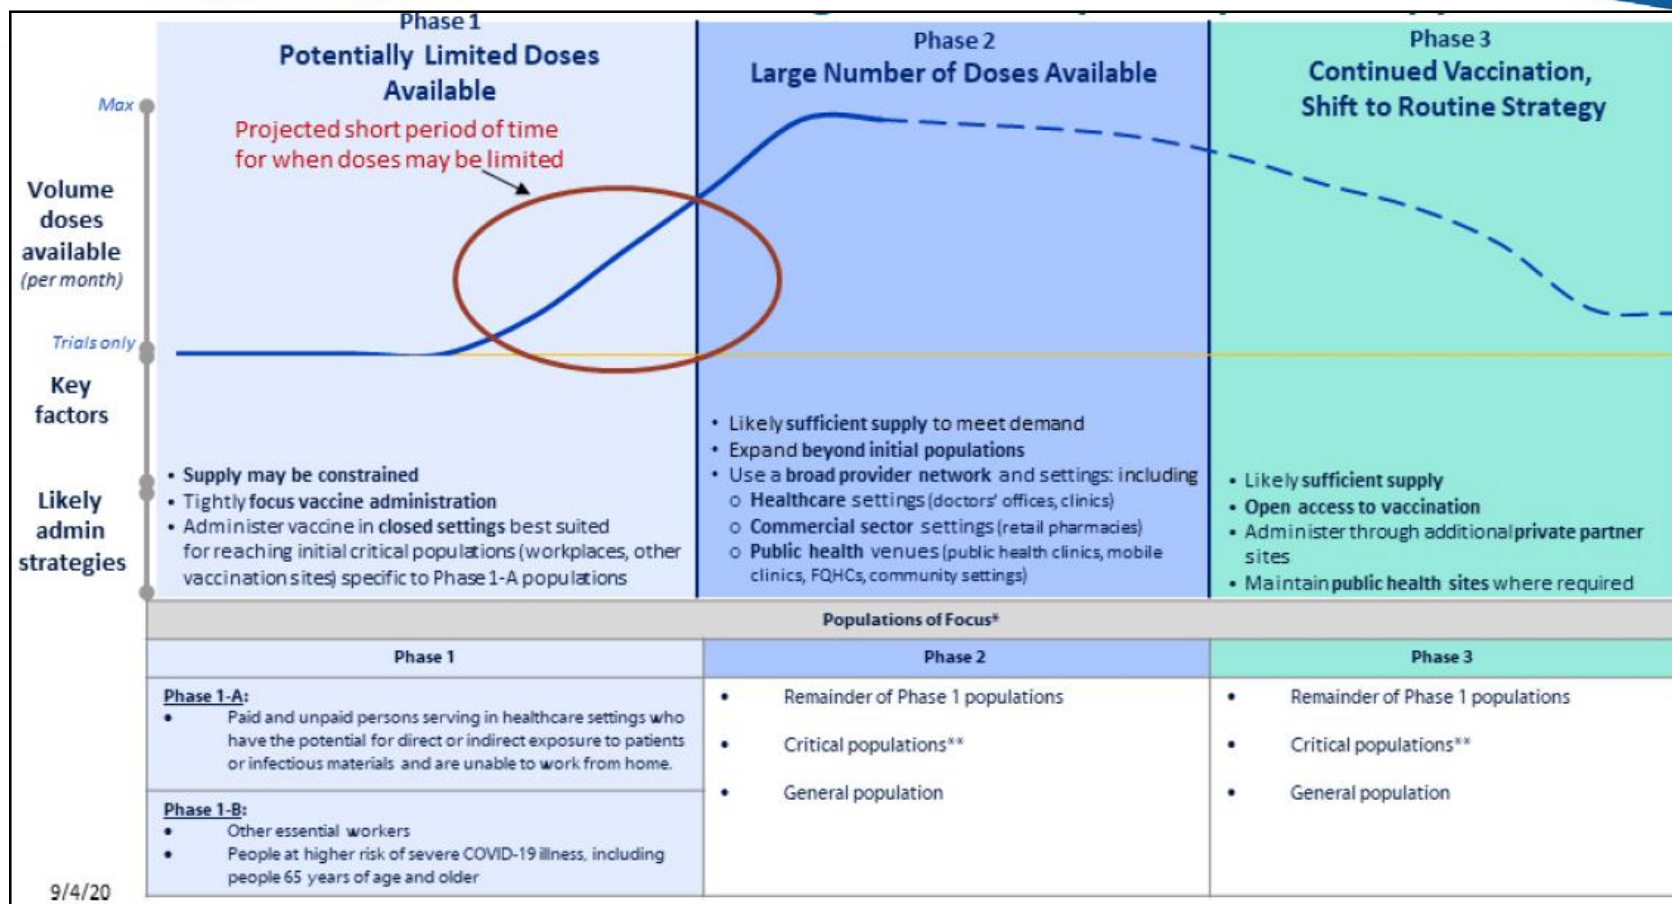

Manufacturer	Status	Storage	Type	Administration
Pfizer	FDA EUA 12/11/20	-70°C, 2-8°C for 5 days	mRNA	2 doses 21 days apart
Moderna	Filed for FDA EUA	-20°C, 2-8°C for 30 days	mRNA	2 doses 28 days apart

\*AstraZenca and Johnson and Johnson estimated to gain EUA approval by the FDA in coming weeks.

# Frequently Asked Questions

- ★ Q: What phase are MRC volunteers in?
- ★ A: MRC volunteers who are actively supporting PODs are considered to be in Phase 1A. For more information, follow up with your local MRC Unit Leader once you respond to a POD activation alert.
- ★ Q: Who all can be vaccinated in Phase 1?
- ★ A: For more information about priority groups:  
<https://www.vdh.virginia.gov/coronavirus/vaccination/>

VIRGINIA

# Frequently Asked Questions

- ★ Q: Is a copy of the Virginia plan we submitted available for us to review?
- ★ A: Yes. <https://www.vdh.virginia.gov/covid-19-vaccine/#resources19>
- ★ Q: Are POD locations already determined? Is there a timeline for when they will take place?
- ★ A: POD locations are already planned, but locations and timelines are not yet public.

VIRGINIA

# Frequently Asked Questions

- ★ Q: Is the Vaccine administration info data entered into the Virginia VIIS system?
- ★ A: Vaccination information will be entered into a system called VAMS to make appointments and information will interface into VIIS.
- ★ Q: How long after immunization before there is an immune response and what is the interval between doses?
- ★ A: Immune response begins at the point of injection. Early reports of Pfizer and Moderna vaccinations report ~94-95% efficacy.
  - Pfizer vaccine: 2 doses 21 days apart
  - Moderna vaccine: 2 doses 28 days apart

VIRGINIA

# Who Can Vaccinate?

- ★ Oriented and Approved MRC Volunteers:
  - MD, PA, NP, RN, LPN, Pharmacist, Pharm Tech, Pharm Intern
